

Conduct of bouts

1. General

The fencers participate at their own risk and discretion as long as they follow the spirit of the tournament rules. Each bout should maintain a polite quality and instructions from tournament officials respected.

The fencers will receive red and blue armbands before the bout, and will be known by their colours during it.

The fencers will start the bout in their corners. The bout begins when the referee calls “fence”. When the referee calls “break”, the fencers must separate and return to their corners, until the referee calls “fence” again.

Bouts are fought to 8 points. If the bout time runs out the fencer in the lead will be declared the winner.

If the score is equal when the bout ends, the bout is a draw. In case of a bout ending in a draw during the elimination round the bout will continue in a sudden death.

A sudden death is fought until one fencer scores at least one point more than the other fencer.

2. Bout time

A bout is fought for 3 minutes or until one fencer has reached the score cap.

Timekeeping is not paused during the scoring; in case there is a longer break in the bout for any reason, the referee will call a time-out.

Ten seconds before the time limit is reached the table will call “Last exchange!”. That exchange will be allowed to be run to its end, as long as the fencers are actively trying to fence. If the exchange becomes too passive, the referee will break it up, ending the bout.

After this the table will announce the score to the referee, who will officially announce the winner of the match and the final score.

3. Scoring

The following targets are illegal, and are worth no points:

- Back of the head
- Spine
- Groin
- Back of the knee

- Achilles tendon
- Toes

If the point limit is reached, the table will call “match”, and the referee will end the match. After this the table will announce the score to the referee, who will officially announce the winner of the match and the final score.

3.1 Scoring with the sword

Only attacks with the edge, point or pommel score points. Strikes with the crossguard are not allowed. All strikes must be executed in a controlled fashion.

- A strike to the head (i.e. a strike with cut with the blade or a thrust) above the level of the chin is worth 2 points
- A thrust to the torso is worth 2 points
- All other legal targets and pommel strikes are worth 1 point
- Any strike made outside grappling with only one hand holding the sword is worth 1 point, no matter what target is hit (only for longsword)

At the first hit, a judge will call “point”. After giving time for an after-blow, the referee will call “break”. When “break” is called, the fencers must cease attacking, separate, and return to their corners. After this, the referee will call “judges”. Each judge will indicate the highest scoring blow for each fencer that happened within one tempo of the initial hit. This means that if the fencer who struck first can hit a higher-scoring target within one tempo, this hit is valid.

The semaphore is as follows:

Hit on 2 points target:	Judge holds the flag vertically up
Hit on 1 point target:	Judge holds the flag horizontally sideways
No hit:	Judge holds the flag low, crossed in front of his body

Each fencer will score as follows:

- If two judges agree on the score, the fencer scores that amount.
- If two judges agree on hit, but disagree on the score, the lower score is awarded.
- If two judges are showing two points, two points is awarded, no matter what the other judges are showing. (2-2-1-1 is 2)
- The referee announces the points for both fencers to the scorekeeper. The scorekeeper then subtracts the lower score from the higher score, and announces the final score.

To clarify: after-blows and simultaneous hits are treated the same and both can score regardless of who struck first. The hits from both fencers are scored independently by the judges; the scorekeeper is responsible for calculating the final score of the exchange.

Incidental strikes, cuts with questionable edge alignment, very light cuts with the point and cuts made with a very small arc does not score. It is up to the fencers to demonstrate “good” hits.

Only indicating attacks with sword or body due to safety reasons will still score. For example indicating a strike to the back of the head during a grappling situation.

3.3 Scoring in grappling

In a grappling situation, a fencer can score by striking with the weapon(s) or by specific grappling actions. These special situations are scored by the referee alone; the judges only score strikes with the sword. The referee will halt the action in case of a judge calling “point”, if there is a scoring grappling technique, if the referee thinks there is a safety issue or if the grappling is at stalemate (ca 5 seconds without anything happening)

Grabbing and maintaining a hold on a stationary sword is allowed.

The following techniques score in grappling:

- If a fencer pushes both feet of his opponent outside the mat, and remains inside with at least one foot. Likewise, if a fencer accidentally leaves the mat with both feet, his opponent is awarded **1 point**. Strikes with the sword by a fencer outside the arena do not score, while strikes with the sword against a fencer outside the arena do score as normal
- If a fencer loses his weapon for any reason, and grappling distance is broken, his opponent will score **2 points**.
- Takedowns that place any other part of a fencer but his feet on the ground, the fencer that remains standing scores **2 points**. If both fencers go to the ground, no score is awarded. Likewise, if a fencer falls outside grappling distance, his opponent will score two points.
- Front kicks to the torso are allowed, but will not score. Note that kicking any other part of the body but the torso is disallowed.
- **Throws where the opponent is picked up, takedowns that land the opponent on his head, and sacrifice throws where a fencer lands on top of his opponent are disallowed, and will be penalized.**
- **All strikes with any part of the body are disallowed, with the sole exception of the front kick to the torso are disallowed, and will be penalized.**

4. Double hits

The referee is obliged to after the scoring decide if the action was a double hit, defined as an exchange where both fencers hit each other simultaneously. If so, it still scores, but the double is noted by the secretariat. Two double hits leads to the removal of 1 match point for both fencers.

5. Errors and penalties

Each bout should be conducted in a safe and respectful manor. The penalties for errors against these guidelines are:

- Warning
- Penalty hit
- Disqualification
- Loss of match points

The referee will rule according to the tables below.

Format of the bout	First time	Second and following times
Not present during bout call	Warning	Penalty hit
Non regulatory equipment	Warning	Penalty hit
Leave the mat without permission	Warning	Penalty hit
Addressing the referee before the final score for the exchange is announced	Warning	Penalty hit
Unwarranted suspension of the bout	Warning	Penalty hit
Request of suspension of the bout due to injury that is not accepted	Penalty hit	Penalty hit

Safety	First time	Second and following times
Turn the back to the opponent before the referee called "break"	Warning	Penalty hit
Take the mask off before the referee called "break"	Warning	Penalty hit
Striking after the referee called "break"	Warning	Penalty hit
Uncontrolled fencing	Warning	Penalty hit
Violent, dangerous or vindictive action	Penalty hit	Penalty hit
Intentional brutality	Disqualification	

Sportsmanship	First time	Second and following times
Refusal to obey the referee	Warning	Penalty hit
Refusal to salute the opponent before the bout	Warning	Disqualification
Refusal to salute the opponent after the bout	Warning	Disqualification
Refusal to face contestant that is duly	Warning	Disqualification

registered		
Person that interferes with the order on the mat	Warning	Disqualification
To favour the opponent or benefit from unauthorized agreements	Disqualification	
Violation against sportsman spirit	Disqualification	

A warning is valid for the bout at hand. If a fencer commit an error that should result in a warning after already have received a warning the opponent receives 1 point regardless of which the second error is.

Each warning is recorded in the bout protocol.

If a fencer, second or member of the audience is disqualified he or she must leave the premises immediately.

Violation against the sportsman spirit includes, but is not limited to, using foul language, throwing equipment and threatening tournament officials.

In cases where an offense cannot be properly addressed by the referee during the bout it is possible for the referee or any of the fencers to make an appeal to the tournament manager. The manager has the opportunity to remove match points from a fencer for a violation that hasn't been fully addressed during the bout.

7. Injuries

If a fencer is injured during the bout, the referee will call a time-out and the medical staff will examine the fencer. If the medical staff clears the fencer to continue, and the fencer wishes to do so, the bout can proceed.

If the bout cannot continue within 3 minutes the injured fencer will have forfeited the bout.

8. Equipment failure

The referee will call a time-out when equipment being broken or displaced is noticed. If a fencer or judge notices an equipment failure, they should point it out to the referee.

If a piece of personal protective gear is broken, the fencer has 3 minute to find a replacement. If this is not possible the fencer will have forfeited the bout.
