

Qualifying for Triathlon

To qualify for Triathlon you have to take part in the following:

- Open and/or Women's longsword
- Cutting
- Singlestick

If you take part in both the Open and the Women's longsword only your better placement will contribute towards the triathlon scoring.

Scoring

In the previously mentioned tournaments you will gain Triathlon points based on your placement. The points for the placements will be as follows:

- 1st - 10 points
- 2nd - 9 points
- 3rd - 8 points
- 4th - 7 points
- 5-8th - 5 points
- 9-16th - 3 points
- 17-32nd - 1 points
- 33rd+ - 0 points

Your points from the three tournaments will be added together and the fencer with the highest total score will win the Triathlon, the fencer with the second highest score will be second and so forth. In the event of two fencers having the same amount of Triathlon points their placement in Longsword is used as a tiebreaker. If they have the same Longsword placement their Cutting placements are used as a tiebreaker.
